

See for yourself...

TEST DRIVE DIGITAL PATHOLOGY AT APIII!

WHO: *Pathologists & IT Professionals* interested in comparing **6** Whole Slide Imaging (WSI) systems

WHAT: **FREE PRE-CONFERENCE PRACTICAL WHOLE SLIDE IMAGING DIGITAL PATHOLOGY WORKSHOP**

- Learn **WSI basics**
- Gain hands-on **experience** with **6** digital slide systems
- **Compare** scanners and interfaces of today's market leader
- Meet pathologists with extensive WSI experience and the vendors who created these WSI systems

WHEN: **Pre-Conference**, 8:00am-1:30pm, Sunday, September 9, 2007

WHERE: Marriott City Center, Pittsburgh, PA

Workshop Agenda

8:00-9:00 Meet vendors and get an exclusive look at their WSI systems

9:00-12:00 Gain hands-on access to top-vendor software and images

12:00-1:30 Discuss WSI at a luncheon featuring the participating vendors

Conference Highlights

Visit the Vendors

- See products, view demonstrations and find out how digital pathology can suit your needs and improve your workflow

Scan your Slides

- Ask vendors to scan **5** of your personal slides into whole slide images
- 4-slide sample sets will be available for scanning, while supplies last
- Use your personal storage devices to save your digital images (remember that digital images tend to have large file sizes)

Demo Vendor Viewing Software

- Use designated PCs and vendor software to view the digital images
